Property Fraud Alert Service Agreement

Colorado County, TX
County Clerk's Office

Property Fraud Alert Description:

Fidlar Technologies (Fidlar) Property Fraud Alert (PFA) service is designed to monitor, identify and notify individuals whose name has been indexed from a document recorded in the Colorado County Clerk's Office. Colorado County Clerk (CLIENT). PFA allows subscribers the ability to have their personal/business name monitored within the CLIENT's office in order to track possible fraudulent activity. PFA allows for free subscriptions via the PFA website and is accessed by the potential subscriber. Subscribers will be notified only when the name they have submitted is used in any recording activities within the CLIENT's office. The alert notification methods provided as options to the subscriber (and selected at the time of subscription) are either email or phone.

The attached Addendum A is a listing of the unique features provided by PFA and must be accepted at the time of the signing of this agreement.

Property Fraud Alert Service Terms and Conditions:

CLIENT agrees to participate in the PFA Service by providing the index data required (at no cost to Fidlar) and permitting the use of this information in order to monitor and identify (via the PFA Service) individuals' identity only for the purpose of possible fraudulent activity. CLIENT understands that PFA is a service provided by Fidlar in order to offer individual alerts to all participating users. CLIENT will post index data via a data format mutually agreed upon by Fidlar and the CLIENT to a FTP site, at interval timings under full discretion of the CLIENT. The data once received by the FTP site will then be processed by the PFA system service which is running on a secured system server behind firewall technology. Fidlar reserves the right to make changes to the PFA service as deemed necessary.

Fidlar agrees NOT to retain subscriber's information beyond time period needed to perform PFA services unless required under another agreement.

Fidlar agrees that it may NOT use or share CLIENT's data in any other way other than the method outlined above for the PFA service, without the express written consent of the CLIENT.

Fidlar agrees to provide needed hardware, technology and software in order to perform needed search and notification to subscribers.

PFA Termination:

The license granted under this agreement, with regard to the Software, may be terminated by Fidlar for material failure of CLIENT to comply with terms and conditions of this Agreement. Within thirty (30) days after CLIENT has discontinued the use of the License program, or within ten (10) days after FIDLAR has terminated any license. The term of this agreement is three-year (3 year.) With no written communication from either side requesting cancellation, this agreement shall continue.

PFA Service Fees: TIPS Contract # 210602

One-Time charge - PFA licensing, set-up and collateral: \$5,500.00

Addendum A

PFA Value Provided to the Colorado County, TX Clerk's Office

- Automatic notification system: Registered constituents receive an email or personal phone call (from Fidlar) each time a document is recorded in their name. The county does not have to worry about cards to mail or address lists to maintain.
- Flexible sign-up processes: Constituents can sign up via the PFA website or for those not comfortable doing so online or for those who do not have access to a computer; sign-up is available by calling the dedicated PFA toll-free number staffed by Fidlar.
- Notifications are sent out upon the recording of any document. Deeds are not the only damaging document that can be fraudulently filed or recorded. Powers of Attorney, satisfactions, etc., can also lead to fraudulent activity. PFA notifies the subscriber any time any document is recorded in the name registered with Fidlar.
- PFA is an opt-in notification system. Once subscribed, the constituent does not have to check in on a website for notification status. Email notifications are sent within 24 hours of the document being made available to Fidlar or the next business day, should the 24-hour period fall upon a weekend or holiday. Phone notifications are attempted within 48 regular business hours of the document being made available to Fidlar. When calling a subscriber with an alert notification, Fidlar will attempt the call twice (in consecutive days) and leave voicemails. If a return call is not received, Fidlar will make a third attempt one week after the first call was made. If no return call is made after the third attempt, the call will be closed.
- A customized PFA website has been created for the Clerk's office. The Clerk's office will have the right to select up to five (5) graphics to be used on the customized homepage.
- PFA requires no changes to existing recording workflow.
- No training required for county employees.
- PFA provides for customization of the email notification verbiage.
- The custom PFA website for the Clerk's will be managed by Fidlar.
- PFA provides an online administration tool for use within the Clerk's office for the purpose of monitoring subscription levels. Also available via the administration tool is the ability to access the current list of subscribers contact information as well as a list of notification alerts that have been sent.

- The call-center that provides live follow-up to PFA subscribers is fully maintained and staffed by Fidlar. This call-center is staffed from 7:00am - 8:00pm CST and is housed at our corporate office in Davenport, IA. This call center will handle the following calls
 - Incoming calls from constituents who wish to sign-up but are either hesitant to do so over the Internet or don't have a computer. Typically, this represents a more elderly demographic.
 - Incoming calls from subscribers who have received alerts and have questions. Historically, our attendants are able to answer incoming questions to the subscriber's satisfaction. However, in the event that a question remains that goes beyond our capabilities, it will be forwarded to the county office.
 - Outgoing calls providing alerts. Subscribers have the ability to receive alerts via email or phone. Those that opt to receive alerts via phone receive a call from one of our call center attendants. We will make three outgoing calls (and leave a personal message, if needed) to insure that we have ample opportunity to connect with the subscriber.

"I was not aware that this type of crime was out there and that it was occurring more frequently around the country.

After discovering the service in the Recorder's Office, I was enrolled with the assistance of a very personable Fidar employee. I hold the value of the Property Fraud Alert service very high, as it offers protection over property the way homeowner's insurance does. Both are services you're glad to have, but hope you'll never need to use."

Warren County, Ohio
Constituent &
Property Fraud Alert
Subscriber

Would you like to increase the public's awareness of the fastest growing white-collar crime?

Property Fraud Alert is a community outreach service that serves to alert subscribers against the possibilities of fraudulent activity being committed against their personal mortgage or property. The FBI has deemed property fraud as the fastest growing white-collar crime within the United States.

Would you like to increase the value of your office to property owners within your county?

Fraudsters will attempt to have counterfeit documents processed by Land Recording Offices unbeknownst to the true property owner. By making the Property Fraud Alert service a resource within your office, your subscribers will be notified any time there is recording activity associated with their name. The alert system is a unique service that keeps Land Recording Offices across the country an essential resource to the public.

Can your office quickly notify constituents of fraudulent activity against their property?

Constituents sign up for the free service and are automatically alerted via phone call or email by the Property Fraud Alert service. Notification is given promptly, allowing the subscriber the opportunity to possibly save themselves time and avoid paying large legal fees if the document recorded is determined to be fraudulent.

WHAT IS PROPERTY FRAUD ALERT?

FIDLAR is proud to be the only firm in Texas offering Property Fraud Alert (PFA). PFA is a hands-free program for counties that provides alerts to your citizens when documents are recorded at your office. Citizens can sign up via a county-branded website or via phone to have their information monitored. All public interaction and support are provided by FIDLAR and the program is free to all of your constituents.

Property Fraud Alert is an internet-based system that automatically alerts your constituents via email or phone, each time there is recording activity on a property owned by them. Upon notification, your constituents can then verify that this activity was initiated by them and not by someone attempting to commit property fraud.

Threats and Vulnerabilities

Serious Public Threat for Property Theft: By default, the public recording system is not designed to protect property owners, so *Property Fraud Alert* can help fill the void, creating a valuable resource protecting your officials, employees, and citizens.

Unaware of Falsely Filed Liens: From disgruntled contractors to unforgiving ex-spouses and sovereign citizens, the instance of false liens is on the rise. A lien can make the purchase, sale or refinancing of a property impossible until all liens have been lifted – which can cost thousands of dollars in legal fees.

Vulnerable County Officials and Employees: In the last few years, a trend has developed where people with vendettas against public officials have filed fraudulent liens against the officials' privately-owned real estate.

Types of Fraudulent Activities

- **Foreclosure rescue schemes**
Tricking people in foreclosure that the fraudster is helping them pay their home off
- **Loan modification schemes**
Similar to a foreclosure rescue, to falsely help people who are behind on mortgage payments
- **Illegal property flipping**
Property is purchased, falsely appraised at a higher value, and then quickly sold.

**MINUTES OF THE COLORADO COUNTY
COMMISSIONER'S COURT REGULAR MEETING**

January 23, 2023

- **Equity skimming**
An investor may use a straw buyer, false income documents, and false credit reports to obtain a mortgage loan in the straw buyer's name
- **Home Equity Conversion Mortgage (HECM)**
Targeting Seniors with False Reverse Mortgages

How Real is the Threat?

Clerks cannot reject based on an assumption of document validity. Counties cannot verify the identification of persons recording legal instruments. People do not check their deed. Elderly are the most vulnerable to mortgage fraud. "It's easier to steal a home than it is to steal a car."

PFA is Simple and Effective

Registration via PFA Webpage is straightforward and easy to use.

We cross check ALL recordings with registrant's names.

We then send an alert to the registrant via email message or by voicemail for subscribers who are not tech savvy (this applies to a lot of seniors).

The email alert can link directly to your public search site, allowing the public to locate the document in question.

PROPERTY FRAUD ALERT

Mar 19, 2023

According to the FBI, property and mortgage fraud is the fastest growing white-collar crime in the United States. The County Clerk's office has taken a proactive step in providing a free on-line automated service in which Tarrant County property owners can sign up to have their name monitored to track possible fraudulent activity.

SIGN UP NOW!!! It's simple. Just enter your personal and/or business name and you will be notified when future documents are recorded in the County Clerk's office. PFA is customizable in that alerts can be generated by email or telephone call from a PFA Representative.

While PFA will not prevent fraud from happening, it provides an early warning system that will allow property owners to take appropriate action should they believe fraudulent activity has occurred with their property.

Registering for PFA is very easy, just a few simple questions. Not only can they register online, but they can also call our Toll-Free Number at Fidar and we can register them via phone if they prefer.

Alert Notifications

Once a constituent has registered for PFA they will be in the database until they opt-out, no re-registering is required. Once they are in the PFA Database, an export from your land records system is scheduled, usually on a daily basis, certainly no more than weekly, which sends the information for all documents recorded for that week and compares it against the PFA database for your county. Where there is a match, the registered constituent is notified by either email or phone, based on the constituent's request. Below is a sample of the notification that they will receive if there is a match.
